

Accountant

The increased attention to food safety and sustainability imposes more and more restrictions on agricultural practices, while there is an increased demand for healthier and safer foods. Therefore, improving production efficiency in a sustainable way, without causing irreparable damage to our environment or depleting valuable resources, is essential.

AgroSavfe has the ambition to contribute to a sustainable production of safe and healthy food. The Company is focusing on the discovery, development and commercialisation of effective and safe biological molecules to tackle pests and diseases using its ground-breaking, proprietary technology platform. AgroSavfe's products are a novel class of biological control agents based on AGROBODY™ bioactives that effectively and selectively target pests' and pathogens' essential molecules. The Company is based in Gent, Belgium.

To strengthen our team, AgroSavfe is looking for an accountant.

Key responsibilities:

- responsible from A-Z for the accounting, tax and payroll administration
- analyzes and timely reports financial data (monthly closing) to the CFO
- responsible for the year-end closure and assists in the audit
- cooperates in designing an environment with adequate controls & procedures
- assists in the budget and business plan process
- assists in implementing an ERP-system for the Company
- assists in other ad-hoc projects

Skills, expertise and contribution:

- can work independently
- accurate
- hands-on approach with a continuous focus on improvement
- analytic and relational skills
- problem solving
- integrity
- eager to learn and stress resistant

Requirements:

- expected educational qualifications: bachelor or master's degree in economics or accountancy
- at least 3-5 years of industry experience:
 - in accounting and tax
 - proven IFRS or US GAAP knowledge
 - with an ERP-system
- advanced level MS Office, in particular Excel
- fluent in Dutch and proficient in English
- affinity with Life Sciences or R&D environment is a plus

Our offer:

We offer a challenging job in an exciting environment, working with top innovators in the Agro-Biotech industry, developing the next generation Ag Biocontrols. You will be part of a professional team that will support you to further develop and grow your personal skills. You will be challenged to take initiative, contributing to the success of the company. We offer a competitive compensation package.
